Pets & Other Animals Plans & Checklists	28
Household Inventory Log	30
Informational Links	33
Disaster Supply Kit Checklist	35
Notes & Special Instructions	36

To build an effective Family Disaster Plan, you need reliable sources of accurate, timely information. The resources in this guide have been developed to assist you in creating a plan and to help keep you informed of items to consider. Also check with your local city or county Emergency Management office for more information about your specific area.

Before an emergency happens, be sure to sit down with your family and decide how you will get in contact with each other, where you will go, and what you will do in an emergency. Write down where your family spends the most time, such as work, school, and other places they visit often. Schools, daycare providers, workplaces, and apartment buildings should all have site-specific emergency plans that you and your family need to know about. Remember that a plan that is not communicated and understood by each family member is bound to have failures.

## **Family Accountability Systems**

Available to families of each service is an online accountability system. The purpose of the system is for members to update their status, or to check on members and their families if they are in an area affected by a disaster. To register, just log on and follow the steps.

- Air Force Personnel Accountability and Assessment System (AFPAAS)
  - o https://afpaas.af.mil
- Navy Family Accountability and Assessment System (NFAAS)
  - o <a href="https://navyfamily.navy.mil">https://navyfamily.navy.mil</a>
- Marine Corps Personnel
  - o Report accountability per Marine Corps guidance using Marine Online
- U.S. Army Disaster Personnel Accountability and Assessment System (ADPAAS)
  - o <a href="https://adpaas.army.mil">https://adpaas.army.mil</a>

#### **BASIC PREPAREDNESS & EMERGENCY PLANNING CHECKLIST**

YES	NO	N/A	INSPECT YOUR HOME (SECURITY / FIRE / WEATHER)		
			House numbers are easily visible from the street		
			Outside lights work properly		
			Trim trees/bushes near your home		
			Maintain 30-foot fire buffer around your home		
			Clean gutters		
			nspect roof – from top (shingles, tiles, vents, etc.)		
			Inspect roof – from attic (roof anchors, sheathing, etc.)		
			Inspect storm shutters or window protection (include tools)		
			Inspect garage door and bracing (include tools)		
			Identify utility shut offs and how to operate them (include tools)		
			Identify any special tools required and their location		
			Identify a shelter room in the house		
YES	NO	N/A	CREATE YOUR PLAN(S) AND PREPARE YOUR KIT		
			Review or develop your family FIRE SAFETY plan		
			Review or develop your family HURRICANE plan		
			Review or develop your family COMMUNICATION plan		
			Share contact information with your neighbors		
			Consider developing a neighborhood emergency plan		
			Secure waterproof containers for documents and supplies		
			Secure coolers for food and ice (wheels and pull handles help)		
			Purchase a landline (old fashioned) phone if you don't have one		
			Rotate and replace items from your supply kit to current use		
YES	NO	N/A	INVENTORY HOUSEHOLD CONTENTS AND REVIEW INSURANCE		

			Make an itemized inventory of your belongings					
			Photograph/video tape your possessions (with date if possible)					
			Review and update your insurance policies as needed					
			Record policy numbers and claims telephone number					
			Copy important records for your supply kit					
YES	NO	N/A	OTHER SPECIAL CONSIDERATIONS					
			Plan for any special medical needs you may have					
			Review or develop your PET plan					
			Review or develop your BOAT & RV plan					

#### **FIRE SAFETY PLAN**

Fires are one of the most common major home emergencies, so a fire safety plan is one of the most important parts of your preparedness efforts. Preparation increases your chances of surviving a fire and returning to normal. Practice your plans at least once per year and anytime something changes with your home or family.

One of the most important pieces of safety equipment you can own is a working smoke detector. Treat all alarms as real until proven otherwise. If your smoke detector sounds, evacuate quickly. Entire houses can be consumed in fire within minutes. Plan for and practice evacuations.

Your local fire department may have additional resources and programs that can assist you in developing your fire safety plans. Contact them on their business line to find out about these additional resources.

DRAW / INSERT HOME FIRE ESCAPE ROUTES MAP

YES	NO	N/A	CONSIDERATIONS
			OCITOIDEIXATIONO
			Inspect and test smoke detectors at least monthly.
			Inspect and test smoke detectors at least monthly.
			Inspect and test smoke detectors at least monthly.  Replace smoke detector batteries every six months.
			Inspect and test smoke detectors at least monthly.  Replace smoke detector batteries every six months.  Inspect fire extinguishers (condition and location).
			Inspect and test smoke detectors at least monthly.  Replace smoke detector batteries every six months.  Inspect fire extinguishers (condition and location).  Consider escape ladder(s) in second floor locations.
			Inspect and test smoke detectors at least monthly.  Replace smoke detector batteries every six months.  Inspect fire extinguishers (condition and location).  Consider escape ladder(s) in second floor locations.  Trained to use fire extinguishers and escape ladders.

## **RALLY POINT & COMMUNICATION PLANS**

Families could get separated during an emergency. List a local place to meet if you can't get back home. What should your children do if they are separated and cannot return home? Where should they go? Do you have good quality, recent pictures of your children with you?

DRA	AW / INSERT RALLY POINT MAP

## **INSURANCE PLAN & CHECKLISTS**

Flood insurance is a good idea even if it is not required by your mortgage company. You may need two separate policies. One covers the structure and the other covers the contents.

CONSIDERATIONS							
What is the estimated market value of your home?							
What is the full replacement value for your home?							
What is your total deductible amount (This will be your out-of-pocket cost.)							
Have you reviewed your insurance coverage within the last two							
years?							
What is the full replacement value of the contents of your home?							
Does your policy provide full replacement cost for your contents?  What documentation is required for your contents and property?							
Do you have a list of your belongings with pictures and							
documentation?

# **SUPPLIES & EQUIPMENT CHECKLISTS**

HAVE	NEED	N/A	BASIC SAFETY EQUIPMENT
			NOAA Weather Radio
			First Aid Kit and Instruction Book
			Landline Telephone (does not require electricity or batteries)
			Battery Powered Television with Antenna, Radio, and Clock
			Flashlights (LED type saves batteries)
			Battery Power LED Lanterns or Chemical Light Sticks (no candles)
			Extra Batteries and Car Chargers for all electronics
			Whistle (to signal for help if needed)
			Cell phone / battery charger (Solar / Hand-Crank Type)

HAVE	NEED	N/A	BASIC TOOLS
			Basic Tool Kit (hammer, wrenches, screwdrivers, pliers, etc.)
			Specialized Tools (for water or gas valves, etc.)
			Plastic Tarps (with grommets) or Roll Plastic Sheeting
			Assorted Screws, Nails and Other Fasteners
			Rope, cord
			Duct Tape
			Canvas or Leather Work gloves

HAVE	NEED	N/A	SANITATION / CLEAN UP SUPPLIES
			Unscented Bleach (for clean-up and to disinfect water)
			Water for Cleaning
			Assorted Cleaners, Sanitizers and Disinfectants
			Rubber Gloves
			Brushes, Brooms, and Mops
			Towels and Rags
			Plastic Garbage Bags
			Bucket (with tight fitting lid) for Emergency Toilet
			Toilet Paper / Paper Towels / Sanitary Supplies
			Wet Wipes and Waterless Hand Sanitizer

HAVE	NEED	N/A	PET / SERVICE ANIMALS
			Water (one gallon per day for seven days for each animal)
			Collar, leash, and lead
			Cage or Carrier for Each Animal (Attach Pet's Photo and Mark with Name)
			Food / Treats
			Toys / Comfort Items
			Clean Up Supplies
			Medications
			Identification / Immunization Records / Photographs

HAVE	NEED	N/A	PERSONAL ITEMS
			Sleeping Bags and/or Pillows and Blankets
			Lawn Chairs / Folding Chairs
			Hot and Cold Weather Clothing
			Sturdy Closed-toe Work Shoes (not sandals or flip-flops)
			Raingear
			Personal Hygiene (toothbrush, toothpaste, soap, deodorant, etc.)
			Medications (Prescription and Over the Counter)
			Spare Eyeglasses or Contacts and Cleaning Solution
			Hearing Aid (spare batteries)
			Entertainment (cards, books, quiet games, MP3 player, batteries)
			Baby / Infant Needs (Diapers, Formula, Baby Food, Cereal)

HAVE	NEED	N/A	FOOD SERVICE NEEDS
			Drinking Water (one gallon per day per person for 7 days)
			Non-perishable Food
			Manual Can Opener
			Juice / Soft Drinks / Instant Coffee or Tea / Dry Milk
			Camp Stove, Grill (with fuel) Outdoor Use Only
			Lighter/Waterproof Matches
			Pots / Pans / Cooking Utensils
			Aluminum Foil
			Disposable Plates, Cups and Cutlery
			Plastic Wrap / Zip Lock Bags / Garbage Bags
			Cooler for Food Storage (Wheels make moving easier)
			Cooler to Transport Ice. (Wheels make moving easier)
			Freeze water in jugs or zip lock bags to keep food cool

HAVE	NEED	N/A	MISCELLANEOUS ITEMS
			Spare Keys (complete set for home, vehicles and boats)
			Pens / Pencils and Paper
			Important Papers
			Keepsakes / Significant Photos
			Coins, Cash, Credit Cards and/or Travelers Checks
			Prepaid Telephone Card(s)
			Maps and Evacuation Information
			Books, games and other quiet entertainment
			Water resistant totes
			Vacuum bags for important items and papers
			Containers for potable water
			Approved containers for fuel
			Fix-a-flat tire repair
			Spare parts / service kits for generators / chain saws

# **CHILD CARE CHECKLIST**

Use the table to calculate how much you need. Keep at least a one-week supply on hand.

## **HURRICANE PREPAREDNESS**

**Get a kit...Have a plan...Stay connected & informed!** The Atlantic Hurricane Season runs from June 1 to Nov 30. Although weather forecasters can provide more warning of an impending storm than ever before, the time to prepare is well before a tropical system even forms. Whether you're a long-time Florida resident or are new to the area, here are some valuable tips to help you get ready.

KNOW THE ADVISORIES		
Tropical Storm WATCH	Sustained winds of <b>39 - 73 mph</b> are possible within the specified area	
Tropical Storill WATCH	in the next <b>48 hours.</b>	
Tropical Storm	Sustained winds of <b>39 - 73 mph</b> are expected within the specified	
WARNING	area in the next <b>36 hours.</b>	
Hurricane WATCH	Sustained winds of <b>74 mph</b> or higher are expected within the specified	
numcane WATCH	area in the next <b>48 hours</b> .	
	Sustained winds of <b>74 mph</b> or higher are expected within the specified	
Hurricane WARNING	area in the next <b>36 hours</b> .	
Hullicalle WARNING	NOTE: A Warning can remain in effect when dangerously high water	
	and/or waves continue even if winds are less than hurricane force.	

	KNOW THE HURRICANE CONDITIONS (HURCON)		
HURCON	Criteria	Expected	
5		96 Hours	
4		72 Hours	
3	Arrival of sustained >58 mph/ 50 knot winds	48 Hours	
2		24 Hours	
1		12 Hours	
1C	Caution: Winds of 40-57 mph/35-49 knots sustained are occurring.		
1E	Emergency: Winds of 58 mph/50 knots sustained and/or gusts of 69 mph/60 knots or greater are occurring.	During / After storm passage	
1R	Recovery: Destructive winds have subsided and are no longer forecast to occur; survey and work crews are permitted to determine the extent of the damage and to establish safe zones around hazards (e.g., downed power lines, unstable structures).	Life-threatening storm hazards have passed	

KNOW THE CATEGORIES	
Category	Wind Speed
Tropical Depression	<=38 mph
Tropical Storm	39 - 73 mph
One Hurricane	74 - 95 mph
Two Hurricane	96 – 110 mph
Three Hurricane	111 – 129 mph
Four Hurricane	130 - 156
Five Hurricane	> = 157 mph

#### Flood Zones vs. Evacuation Zones

**Flood zones** and **Evacuation zones** are different. Flood zones are areas identified by FEMA where frequent flooding may occur. A home may be in a non-evacuation zone, yet still be in a flood zone because of a nearby stream or pond. Residents must check both zones. An Evacuation zone is an area identified by local authorities that would need to evacuate in the event of severe flooding caused by a tropical storm or hurricane.

• Flood zones are mapped by FEMA for use in the National Flood Insurance Program. Each flood zone designation, represented by a letter or letters highlighted in blue and orange, tells homeowners exactly what the risk is for flooding at their property over a period of years, regardless of the cause. By law, all homes in high-risk zones carrying a mortgage must be covered by flood insurance. An important thing to remember is that flood losses are not covered by homeowner's insurance policies. The National Flood Insurance Program makes federally backed flood insurance available to residents and business owners. Any flooding damage covered under the policy – whether a federal disaster declaration is made – will be reimbursed per the policy limits, which can include structural damage or the loss of contents.

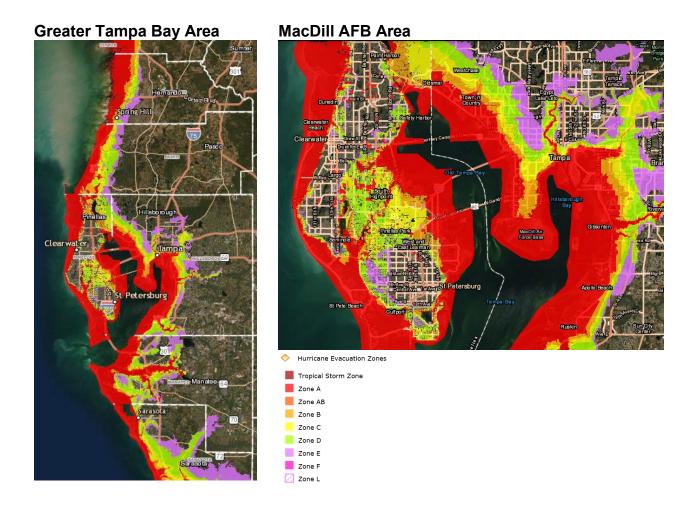

FEMA Flood Map Service Center: Welcome! (https://msc.fema.gov/portal/home)

Evacuation zones are based on hurricane storm surge zones, which are determined by the
National Hurricane Center based on the height of the ground and how vulnerable an area is to a
hurricane's storm surge. The evacuation zones are marked from A through E, plus nonevacuation zones.

- Emergency Management Office: (813) 828-4321

#### Get a Kit

Assemble a disaster supply kit for your family and pets. Your kit should allow you to be self-sufficient for a minimum of 3 days, but the Florida Division of Emergency Management recommends 7 days of food and water and 14 days for medical supplies. If you stay home during an evacuation event, expect a complete loss of power, water, and communications. If you evacuate, think about what you will need if you can't return home for a while and be sure to bring your own disaster kit as one will not be provided by a shelter or host family.

#### Federal Emergency Management Agency

- Build a Kit: https://www.ready.gov/kit

## Florida Division of Emergency Management

- Disaster Supply Kit Checklist: Located on page 35. https://www.floridadisaster.org/planprepare/hurricane-supply-checklist/

#### Have a Plan

Consider both yourself and your loved ones, including pets. Know that public shelters aren't comfortable, and most can't take pets or accommodate persons with serious medical needs. If you will stay at home, designate an interior room or closet to take shelter. If you will evacuate, plan where you will go and how long it will take to get there in traffic. Develop a personal checklist for preparing for an impending storm, i.e. – board up windows, turn off power, fill up cars with fuel, etc.

## **Stay Connected & Informed**

Watch TV and listen for alerts on an all-hazards alert weather radio. Know how you will communicate with family members if cellphones, the internet, and landlines phones don't work. Register for your city and county's official notification system for emergency and urgent messages, including severe weather alerts. Lastly, have some way to communicate to others while relocating.

#### **HURRICANE RISK EVALUATION**

Certain factors may influence whether you decide to stay or leave. Poorly built structures are more susceptible to wind damage, while homes in low spots or water basins may flood during a tropical storm or hurricane even if they are not in an evacuation zone.

Safe Haven - is a term used to describe homes and locations outside the Tampa Bay area. When an evacuation is declared, personnel must relocate outside of the directed evacuation zone. This location will be known as your "Safe Haven". Safe Haven locations must be with in the continental United States, and you must be able to return to MacDill AFB within 24 hours of a recall. The installation Commander or Unit Commander may also decide to place stricter restrictions on Safe Haven locations. Personnel must follow the directed Limited Evacuation Order (LOE) signed by the 6 ARW/CC.

HOME INFORMATION			
What	What is the evacuation zone where your home is		
locate	ed? Fi	ind My Zone Link	
What	is the	elevation for your home's first floor?	
YES	NO	LOCATION:	
		I live in a Storm Surge Evacuation Zone.	
		I live in a mobile or manufactured home.	
		I live in an RV or onboard a boat.	
		I live on the coastline, an offshore island, or near a river/ flood plain.	
		I live in a high-rise building as winds are generally stronger at higher elevations.	
YES	NO	STRUCTURE:	
		Does My home not have storm shutters or window protection?	
		Does my home have a hurricane-rated garage door?	
		Does my home have a gabled roof?	
YES	NO	VULNERABILITY:	
		Am I required to purchase flood insurance?	
		Was my home built prior to 2003?	
		Are there large trees that could hit my house if they blow over?	
		Does my home have two or more stories constructed of different materials? (CBS lower	
		story and wood framed upper story)	
		Do I live in a building with an elevator and would have a hard time getting in and out if	
		the elevator did not work?	
NOT	□. If w	on anomared VES to any of these guestions, you or your home may be vulnerable to the	

**NOTE:** If you answered **YES** to any of these questions, you or your home may be vulnerable to the impact of a hurricane. If you cannot protect and strengthen those areas, you should consider evacuation.

## STAY AT HOME OR EVACUATE?

Know your home's vulnerability to **water flooding** and **wind**. Develop your plan is based on this knowledge. The following options will help guide your decision to stay at home or evacuate.

STAY AT HOME OR EVACUATE?		
Option A:	<b>Stay at home</b> . If your home can withstand the expected winds, and you are away from the coast and not in an evacuations zone or flood prone area, consider staying home. However, it is strongly recommended to follow the guidance of local authorities and evacuate when an order is given.	
Option B:	Relocate to your "Safe Haven" location out of the area. Local officials will tell you which evacuation routes to use. Plan your route ahead of time, also plan alternate routes. Include maps and directions in your hurricane kit. Leave early to avoid high winds and flooding.	
	Go to a public shelter if you have no safe place to go. Local media will announce which shelters are open. Do not wait until the last minute to learn the route to the shelter.  • Evacuate if ordered.  • If you live in an older mobile home or on a boat, you must evacuate.  • Execute your family plan.  • Respond quickly but without panic.	

**NOTE:** Gather and record important information in this booklet to create your Family Hurricane Plan. This plan will help you and your family prepare for Hurricane Season. After your plan is complete, discuss it with everyone involved and keep a copy in your Hurricane Kit.

# **HURRICANE CONDITION CHECKLISTS**

DONE	N/A	PRIOR TO THE START OF HURRICANE SEASON (1 JUNE):
		Review your tropical storm/ hurricane plan before the start of hurricane season
		Validate Safe Haven information contained in AtHoc
		Ensure information on unit recall/notification rosters are current
		Ensure your family plan includes procedures for family preparedness when the sponsor is deployed
		Know your unit's hurricane preparedness plan
		Attend a hurricane awareness briefing
		Know your Hurricane Evacuation Zone
		Get familiar with your evacuation route and preferred location
		Keep your prescriptions full and up to date (include over the counter meds)
		Pack a First Aid Kit, include sunscreen and insect repellant
		Get a car charger (or solar charger) for your cell phone
		Post emergency numbers by each phone and in your supply kit
		<ul> <li>Inspect your home and surrounding areas to detect and remove potential sources of danger such as:</li> <li>Damaged, worn or improperly secured doors and windows.</li> <li>Gutters and drainpipes on buildings that are clogged, worn or otherwise incapable of normal operation.</li> <li>Storm drains, sewers, holding ponds and catch basins, which have not been cleaned out and made ready for maximum capacity operation.</li> <li>Hazardous trees, especially those with rotted limbs or trunks should be inspected and removed.</li> </ul>
		Conduct an inventory / operation check of emergency supplies needed for hurricane preparation and recovery.  Tools Plastic sheeting, tarps, garbage bags Rope Lumber Plywood Chainsaws (bar oil, chains, chain sharpener) Generator (Grounding rod; spare: fuses, oil, filter, spark plug) Check expiration dates of your emergency food supplies. Rotate/replace items that will expire during the upcoming season. Ensure any extensive or lengthy maintenance is accomplished on your POV prior to
		the start of the hurricane season.

DONE	N/A	96 HOURS BEFORE THE STORM (HURCON 5):
		Review family preparedness plans, including evacuation routes, accommodation availability, and current installation hurricane policies and procedures
		Review and update recall rosters and specialized team assignments at work
		Review and update Safe Haven location(s) and update rosters / AtHoc
		Review pet care plans during and after an evacuation
		Inspect POVs. Lube, oil, replace defective tires, windshield wipers, or lights as needed
		Check serviceability and quantities of your emergency food and other supplies
		<ul> <li>Prepare your home:</li> <li>Remove/secure items that may become hazards in high winds.</li> <li>Trim trees/branches.</li> <li>Clean gutters, downspouts, and drains.</li> </ul>
		Inventory storm preparedness/recovery related materials, supplies, equipment. Consider procuring hurricane protection materials such as plywood, waterproof containers, plastic bags/sheets and tarps.
		Monitor tropical storm/ hurricane forecast
		Keep your vehicles fueled

DONE	N/A	72 HOURS BEFORE THE STORM (HURCON 4):
		Hold a family meeting to discuss your plans and options
		If you plan to go to a hotel, make your reservations. Have a backup plan/ location
		Monitor local TV or radio and listen for evacuation orders
		Maintain contact with duty section and keep them advised of your plans
		Check and prepare your emergency food, water, and other supplies
		Withdraw cash from bank
		Pay bills that are due soon
		Fill your car's fuel tank, check tire pressure and fluid levels
		Write down phone numbers of family/friends
		Gather valuables to take with you or put them in a safe place
		Start freezing water in containers or zip lock bags (fill freezer), ready ice chests
		Test and top off home generators (DO NOT use generators inside garage or house)
		Review HURCON 2 actions

DONE	N/A	48 HOURS BEFORE THE STORM (HURCON 3) (HURRICANE WATCH ISSUED):
		Continue to monitor local TV or radio and listen for evacuation orders
		Gather remaining food requirements and other supplies
		Withdraw cash from bank if not already accomplished
		Pay bills that are due soon if not already accomplished
		If you plan to go to a hotel, confirm your reservations
		Fill your car's fuel tank, check tire pressure and fluid levels
		Make final preparations to protect your home from storm's effects
		Gather valuables to take with you or put them in a safe place if not already accomplished
		Start freezing water in containers or zip lock bags (fill freezer) and ice chests
		If evacuating, pack car. Maintain a list of emergency numbers along your projected evacuation route.
		If evacuating to a shelter (not recommended), comply with the following general shelter regulations:  No Pets (Service dogs may be allowed).  No Firearms.  No Alcoholic beverages.  No Smoking.  Bring the following items for the shelter stay:  72-hour supply of non-perishable food.  72-hour supply of food for infants.  Special, required medicines or foods.  Adequate clothing for the anticipated period of shelter occupancy.  Bedding.  Toiletry articles, plastic water glasses, towels and washcloths, books, and games.  Inflatable mattresses, sheets, blankets, etc.
		Maintain contact with duty section and keep them advised of your plans
		Maintain contact with your friends and family and keep them advised of your situation, location and intentions.
		Keep cell phones fully charged in case there is a loss of power.
		Continue to monitor the storm's progress and prepare for changes in the storm's path.

DONE	N/A	24 HOURS BEFORE THE STORM (HURCON 2) (HURRICANE WARNING ISSUED)
		Continue to monitor local TV or radio for storm updates and evacuation route status
		<ul> <li>If you are staying in your home:</li> <li>Put supplies in the safe room.</li> <li>Fill bathtub with water (for sanitary use, not drinking).</li> <li>Have a minimum of 1 gallon of water per person/day on hand for drinking. Fill empty sealable containers (e.g., juice, soda, water) with tap water if bottled water isn't available.</li> <li>Ensure cell phones and rechargeable devices are fully charged.</li> <li>Make final preparations to secure your home from the approaching storm.</li> <li>Check on neighbors and lend necessary assistance.</li> </ul>
		Super chlorinate your swimming pool (do not drain it).
		<ul> <li>If evacuating:</li> <li>Turn off water/electricity (leave frig / freezer on).</li> <li>Secure important papers, jewelry and large amounts of money in a safe deposit box or safe location.</li> <li>Verify considerations are taken for family members with special needs.</li> <li>Verify residence is secure prior to departing.</li> <li>Have full tank of fuel prior to departure.</li> <li>Carry potable drinking water in vehicle.</li> <li>Carry sufficient money/credit cards to defray cost of meals, gas and other expenses.</li> </ul>
		Maintain communications with your family, unit, and supervisor making sure they know your intent and evacuation plan/route.

DONE	N/A	RECOVERY, AFTER THE STORM (HURCON 1R)
		Continue to monitor social media, local TV or radio for storm updates / status.
		Recovery operations should begin once all danger from the storm has subsided-usually 12-24 hours after storm passage.
		Perform a survey of facilities and the surrounding area; determine the extent of damage and evaluate necessary recovery actions.
		If evacuated, don't return home or to the base until it is determined safe to do so.
		Be cautious of downed power lines, trees, water over washed-out roads, animals and insects.

## **BOATS / RV PLAN & CHECKLISTS**

Develop a detailed plan to secure your boat/RV well before hurricane season. Practice your plan. Act early. The storm's fringe activity will make preparations more difficult. **Do not weather the storm in your boat, mobile home, travel trailer or RV.** 

DONE	BOAT CONSIDERATIONS:
	Consolidate all records (recent photo, registration, insurance policies, equipment inventory, and marina or storage agreement) and important telephone numbers.
	Check your lease or storage rental agreement. Know your responsibilities and liabilities as well as those of the marina.
	If possible, do not leave boats on davits or on a hydro lift.
	Move small boats to safe shelter or put your boat in the garage, if you have room.
	If your boat remains in berth, check the integrity of primary cleats, winches, and chocks. Use substantial backing plates and adequate stainless-steel bolts.
	Double all lines with crossing spring lines fore and aft. Attach lines high on pilings to allow for surge. Protect lines from chafing with heavy duty chafing gear.
	Charge batteries for automatic bilge pumps.
	Seal all opening with duct tape to make boat as watertight as possible.
	Use heavy duty dock fenders to reduce dock and piling crash damage.
	Remove loose gear from the deck. Store it securely inside or at home.
	For a boat on a trailer, lash the boat and trailer down in a protected area. Let the air out of the tires before tying the trailer down. Place blocks between the frame and axle, inside each wheel. Secure with heavy lines to fixed objects in all 4 directions. Small boats may be filled with water for added weight after lashing down.
	Remove the outboard motor, battery, electronics and store them.

DONE	MOBILE HOME, TRAVEL TRAILER OR RV CONCIDERATIONS:
	Check tie downs.
	Put up storm shutters.
	Stow / Secure awnings, antennae or other attached items.
	Secure all loose articles in yards and around the unit.
	Inspect your vehicle to ensure it is roadworthy and leave early if evacuating.

## PETS / ANIMALS PLAN & CHECKLIST

Obtain and fill out a pet identification form from your county's pet friendly shelter making sure it's attached to your pet carrier or kennel. Be sure to include specific and vital information regarding your pets.

YES	NO	N/A	PET CONSIDERATIONS			
			Will you take your pet whe	en you evacuate?		
			Does your pet have a collar tag or a microchip implant?			
				ership, veterinary and vaccination records?		
				quality, pictures from all angles?		
				te and when you will evacuate.		
				acuation County for a list of shelters that allow for pets.		
				outside of evacuation areas if they can keep your pet.

## **Pet and Animal Supplies**

Gather the following supplies. Make sure you have separate supplies for each animal. Even animals that normally get along well together should be handled and caged separately:

Yes	No	N/A	
			A sturdy cage or carrier for each animal.
			7–14-day supply of food and water
			Non-spill food and water bowls
			Medications (including heartworm and flea and tick preventative)
			Leash with collar and/or harness and a muzzle for cats and dogs
			Comfort items (favorite toy, blanket, treats)
			Sanitary clean-up supplies (cat litter, pan and scoop, plastic bags, paper towels,
			newspaper)
			First Aid kit and Manual (contact your vet)

#### After A Storm:

Walk pets on a leash until they become re-oriented to their home. Often, familiar scents and landmarks may be altered, and pets could easily be confused and become lost.

Reptiles brought in with flood water and debris can pose a threat to animals after a disaster.

Bring along a picture of your pet for identification.

After the disaster, animals can become aggressive or defensive. Monitor their behavior.

## **Post-Disaster Animal Collection Temporary Collection Sites:**

After a storm, stray animals will be collected and staged at temporary collection sites prior to transfer to more permanent shelters. The location of these collection sites will be determined based on prevailing conditions. Every effort will be made to inform the public of these locations so that animals can be returned to their owners as quickly as possible.

Once the site(s) have been determined you should look for your pet(s) at the location nearest your home and where you last saw your pet.

To Report a Lost Pet In:				
Hillsborough County: (813) 744-5660	Pasco County: (727) 834-3216
