

The Joint Personal Property Shipping Office (JPPSO) is working diligently with Headquarters Air Force to provide updated information regarding service member household goods shipments.

JPPSO is expecting to provide an update on the effects of COVID-19 to shipments and pickups in the coming days. Most service members with pick up dates during the stop movement will receive an email and phone call from their servicing TSP.

TSPs will also be working with our Transportation Officer for local guidance for all pack outs/pickups. As the Personal Property Office receives further information we will distribute to Team MacDill. Check out our questions and answers here.
